SMALL BUSINESS CASE STUDY

Humpty Doo Barramundi Dan Richards, General Manager

“We have young people eager to have a future in aquaculture and mature people from other industries who bring their experience and knowledge to our business,” Dan said.

“Tapping into their talent and having the opportunity to help them develop through the National Workforce Development Fund is a necessary investment in the future of the company and our people.”

## How Australian Government Skills Connect can help you

Australian Government Skills Connect links businesses and industry to workforce development and training programs. It is a new approach by the Australian Government to integrate services that link Australian businesses and industry to programs that focus on workforce development. Whether you are looking for new staff, want to invest in up-skilling or re-skilling existing staff, or want to access assistance to help you build your business and improve productivity, Australian Government Skills Connect can help you take the first step.

Workforce planning and development

Finding and attracting staff

Retaining and developing existing staff

Resources, contacts and news

This website is designed to provide access to Australian Government programs and services for workforce planning, development, training, staff attraction and retention. These programs will help you get the most out of your business and your most important resource – your staff. Navigate through the options above and get connected to the Australian Government support and funding that best suits your unique business needs.
