- TAELLN501B: Support the development of adult language, literacy and numeracy skills
- New unit: accessing resources
- New unit: instructional strategies

Development process

- National Project Reference Group guidance
- Scoping paper and consultation
- Development of new units
- Feedback on drafts
- Revision of drafts
- Validation
- User Guide development
- Formal endorsement in 2013

New unit titles

- Use instructional strategies to integrate foundation skills into vocational training sequences
- Access resources and collaborate with specialists to support foundation skills development in a vocational context

Purpose of skillset

To build the skills and knowledge of vocational practitioners. Enabling them to:

- Look at the big picture
- Look at their own practice
- Understand how the ACSF works
- Make adjustments to their practice
- Find and use suitable resources
- Work collaboratively with foundation skills specialists.

How could it be used?
